

## Statistical physics II, homework 5

**Monte Carlo simulation of the Ising model:** Write a Monte Carlo program for the Ising model without external field on the square lattice of size 200X200. Try to determine the critical temperature. Show snapshots for  $T < T_c$ ,  $T = T_c$ ,  $T > T_c$ ,

**Deadline: October 20, 2016**
